

InterCrate 6.7

- ☑ Tomatoes
- ☑ Mangos
- ☑ Tropical Fruits

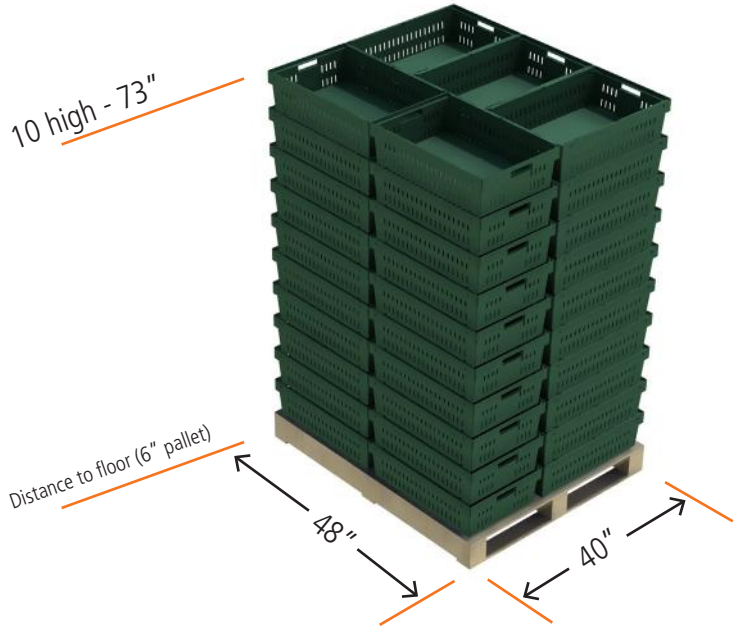

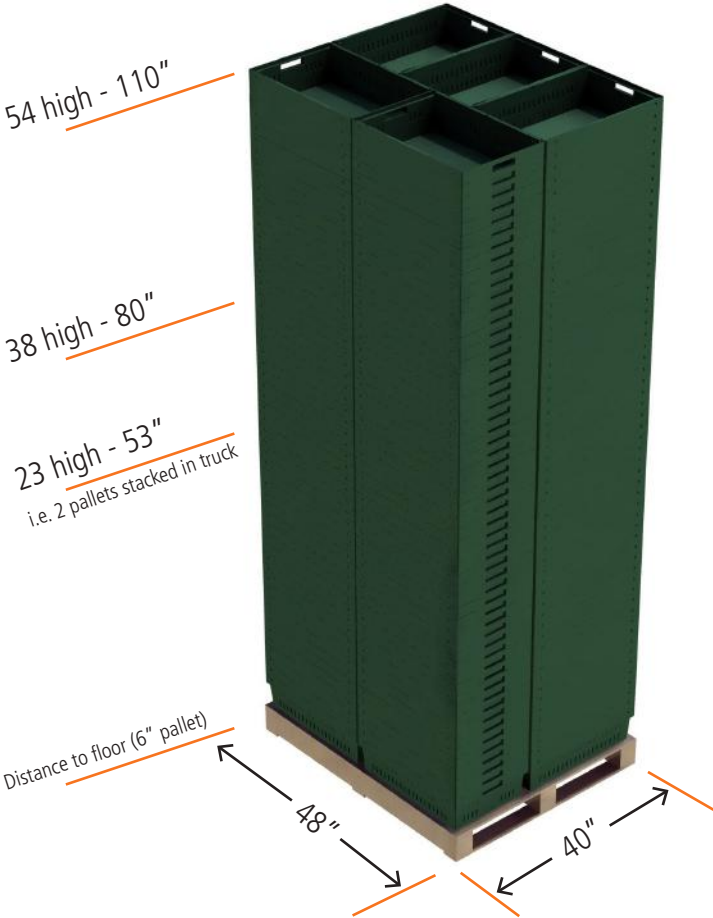

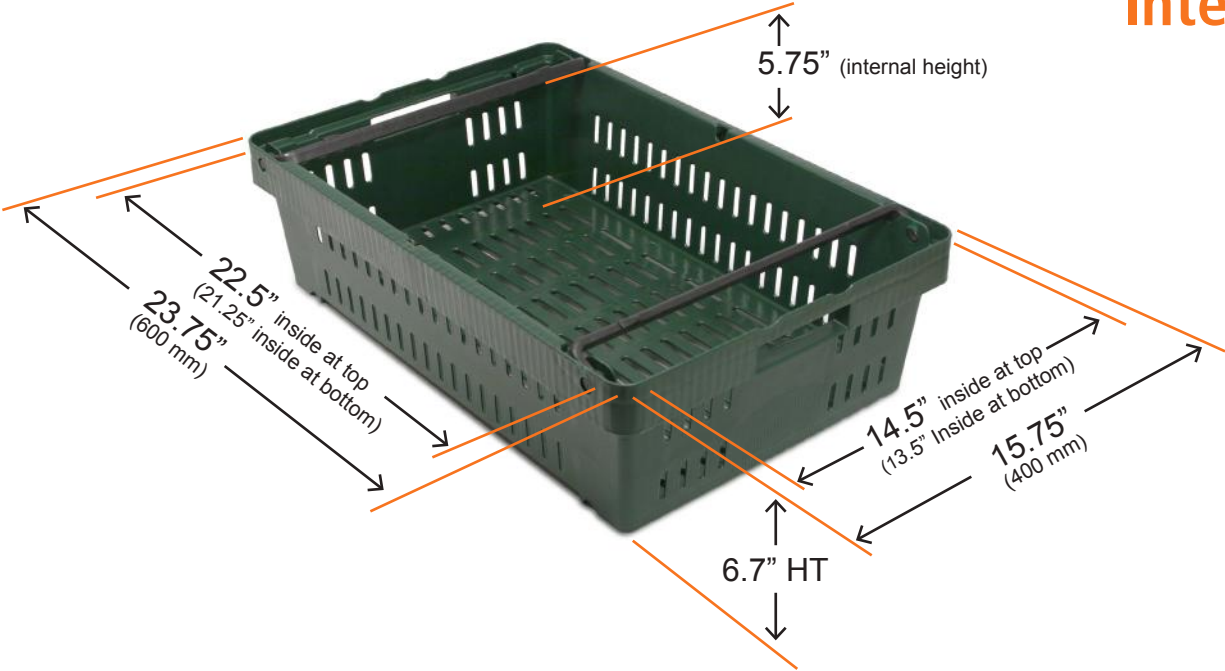

InterCrate 6.7 balances economy and protection of your quality produce. Vine ripe tomatoes, fruits and vegetables are cradled in a smooth, well ventilated container without crushing. A simple, strong, efficient, versatile container, with great ergonomics. A great choice for growers who handle a variety of produce.

- Ventilation pattern that maximizes heat and humidity evacuation
- Save space on mechanized harvesters and while handling empties
- Swing bar stacking - composite nylon swing bars stack fast and secure
- Strong and gentle - robust, smooth interior to protect quality of your fruit.
- Easy to clean - automated lines, pressure wash, or steam
- Tag holder system that is simple, clean, and allows bar-coding
- Great for merchandizing - ship straight to customers in reusable containers
- Reusable containers reinforce consumer perception of local farm fresh
- Efficient storage and return - each empty adds less than 2" to stack
- Handheld open or closed
- Full double wall perimeter provides strength without exposed ribs
- Carries 25 - 27lbs of vine-ripe tomatoes
