

FreshTote

- ☑ Salad
- ☑ Vegetables
- ☑ Corn
- ☑ Other Leafy Greens

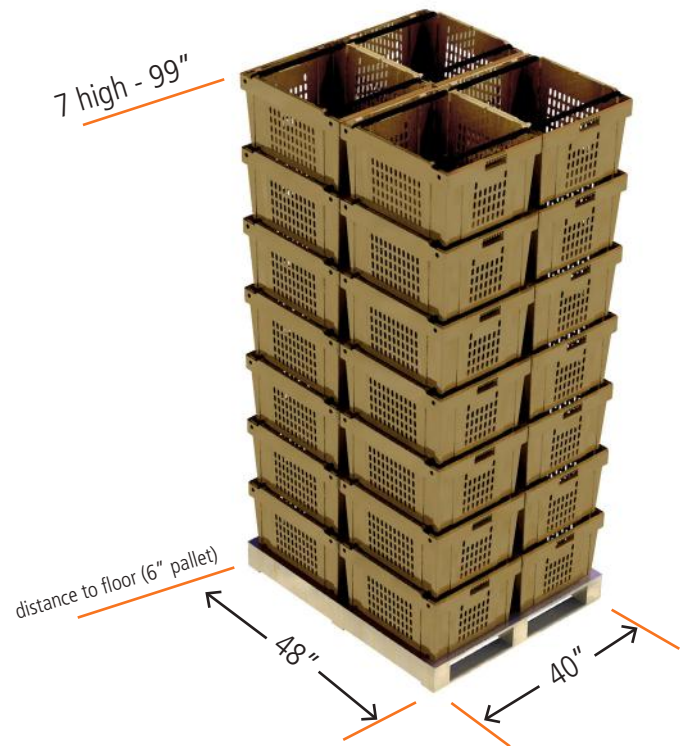

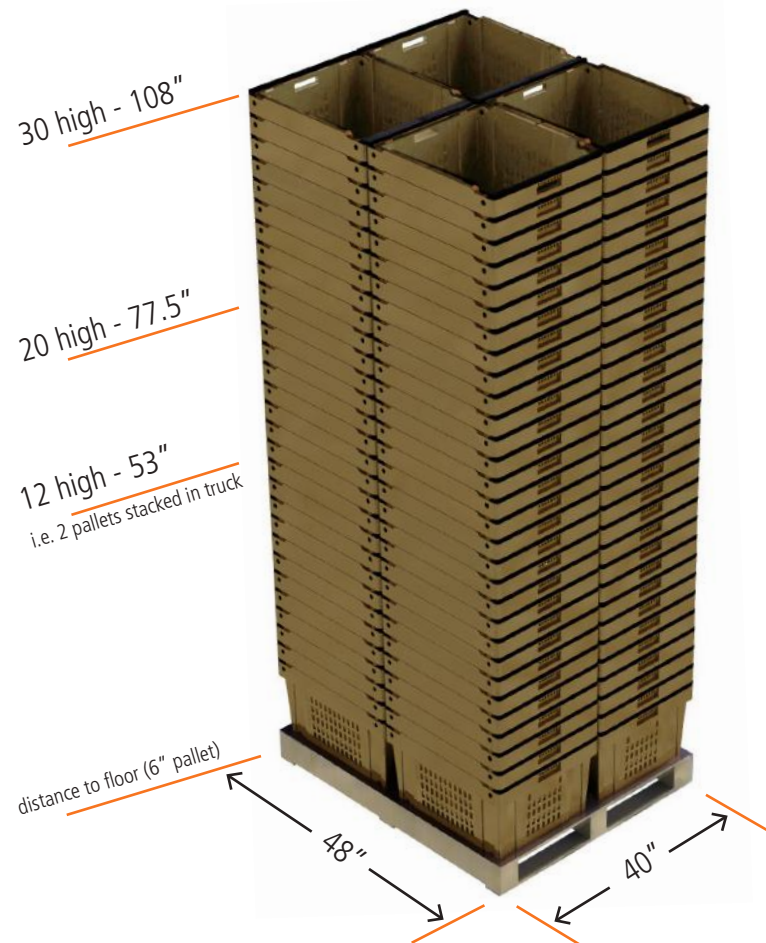

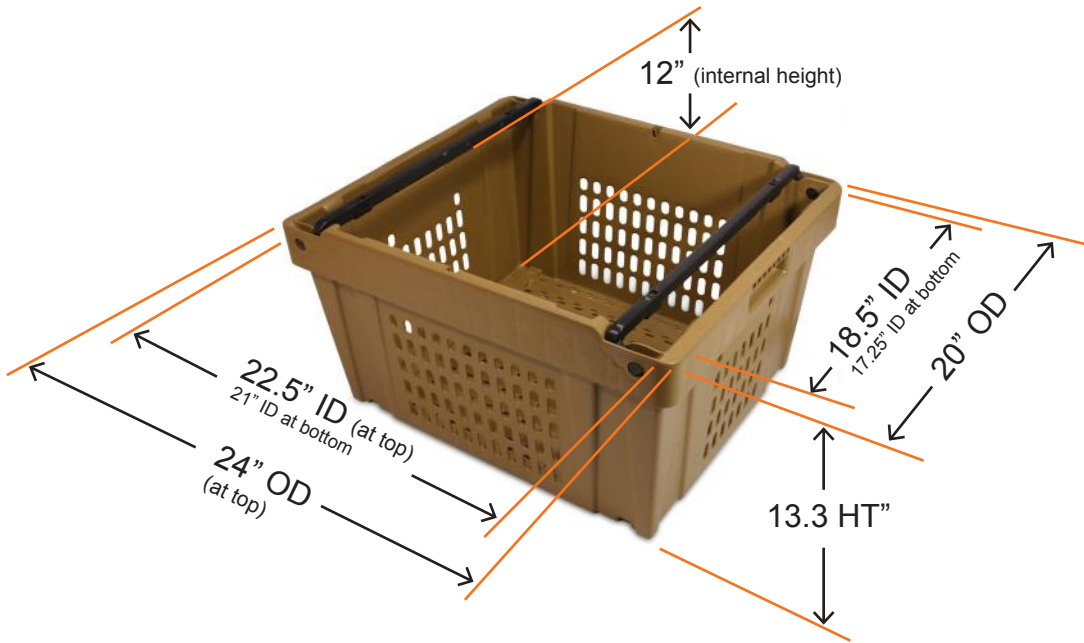

The FreshTote is simply the toughest, most break resistant salad harvest tote available. Reducing tote damage by switching to FreshTote will save money and reduce risk of plastic debris in finished product. The FreshTote's sturdy construction reduces mechanical damage of salad and the balanced ventilation improves pack-out. The FreshTote was developed in collaboration with a leading salad packer who wanted to create the best tote available and together we did.

METAL DETECTABLE

- The toughest reusable tote for the salad industry
- Compatible with equipment used in the salad industry
- Geometry of the tote eliminates all external ribs. Ribs are where cracks start and dirt gathers
- The container is smooth inside and out which means higher quality product and better ergonomics for harvest crews
- FreshTote's thicker, more rigid-by-design allows us to use a tougher, more-forgiving and impact absorbing copolymer propylene
- Designed with direct involvement of an industry-leading salad packer who brought all their expertise and priorities to bear. They wanted a tank and they got a tank
- Washes and sanitizes well
- Contains 45 lbs of salad , 4 down on a pallet, 6 or 7 high in a trailer. Up to 120 empty totes per pallet - a significant efficiency gain over our competition
- Can stack 2 pallets high in cold storage
- Improved ergonomics - thicker and more comfortable handles, rounded edges, no sharp ribs, smooth interior and exterior, secure and defined interlock between swing bar and container above
- Metal detection - our FDA food grade, proprietary, proven blend, allows plastic debris to be detected by most metal detectors used in fresh cut operations.
- Color choices - use color for operational simplicity and to protect your assets
- Smooth underside of base is gentle on overfilled totes and reduces mechanical damage

30 layers stacked empty - 120 containers / pallet

7 layers stacked full 28 full with fruit / pallet

Standard color : Forest Green or Tan. Custom colors available

Tare weight 8lbs
Internal Volume 4995in³ 2.89 ft³ (82L)
